Portfolio Website: <http://abhib.my.to/>

LinkedIn Profile: <https://www.linkedin.com/in/abhishekbhatia005/>

Accomplished Front-End Developer with 3+ years of full-time experience in building and developing successful single page applications with modern technologies like React (16.8), Node.js, Handlebars, ECMAScript, etc, for a USA based BFSI Domain Project. Proven ability in building smooth User Interface and creating RESTful APIs that can deliver JSON or XML content. Proficient in a wide range of Building tool, Testing tools, and Version control tools.

Software technologies/platforms worked on include, Microsoft .Net (C# MVC), HTML5, React (16.8), CSS3, Bootstrap, JavaScript, jQuery, Handlebars, NodeJS, REST API, VS Code, Visual Studio, Jira, etc.

Well versed in working with Agile Teams while being a very good team player. A continuous learner that keeps up on new technologies and frontend frameworks.

EXPERIENCE

NOVEMBER 2018 – PRESENT

DESIGNATION: SYSTEMS ENGINEER

ROLE: DEVELOPER

TATA CONSULTANCY SERVICES (TCS) – MUMBAI, INDIA

I have been part of an agile BFSI team for the last 3+ years developing and delivering key milestones for the BFSI Website. With keenness to domain understanding, worked closely with Business Analysts and Product Owners to plan and estimate the deliverables as per the requirements in JIRA. Developed and maintained the deliverables with Offshore and Onshore developers within a specific time box. Worked closely with the QA team to identify and fix defects if any arise.

- Involved in product planning, gathering requirements and developing web applications using Agile methodology.
- Developed single-page web applications with excellent cross-browser compatibility using HTML5, CSS3, SCSS, Bootstrap, JavaScript (ES6), React (16.8) and AJAX.
- Developing web pages that are Web Accessible and ADA Compliant.
- Developed REST services for UI Applications.
- Participated in many front-end designing issues, provided many creative and efficient ideas of required output and implemented them using JavaScript and created client-side modules.
- Developed independent modular components and modules that can be integrated as ready to use components.
- Used Git, Bitbucket and subversion for managing code and used JIRA for tracking and planning sprints adhering agile and Scrum methodologies.

Technical Skills-

HTML, CSS, SCSS, JavaScript (ES6), React (16.8), jQuery, Handlebars, Node.js, NPM, REST API, JSON, ADA, AJAX, ASP.net, MVC, Bootstrap, C#, Visual Studio Professional, Visual Studio Code, HP MLQC, JIRA, Bitbucket, GIT & TFS.

TRAINEE

TATA CONSULTANCY SERVICES (INITIAL LEARNING PROGRAM) – TRIVANDRUM, INDIA

I underwent a training program called, Initial Learning Program (ILP).

In ILP I was trained on Web technologies and was assessed for the same at the end. I was elected as the GR (Group Representative) for my Learning Group, where I would manage and represent a batch of 30 Associates.

Few of my responsibilities were as follows, to act as a mediator between the Supervisors, Training conductors and Associates, to manage leaves of associates, to keep a track of completed courses/trainings, Scheduling and organizing extra-curricular activities. I also volunteered as a Safety Champion.
